

SEND Information Report 2025-26

At Leigh Academy Tonbridge, we value the abilities of all our students and strive to provide the best education to all our students so they can make good progress and achieve ambitious and appropriate goals.

We strongly believe that it is our duty to provide equal opportunities for every child/young person in our care, and also provide a safe and fully equipped learning environment, which caters to the needs of every pupil/student as an individual. We are committed to providing excellent provision for all students with SEND by providing an ambitious and inclusive curriculum offer, delivered by skilled teachers, and a rich co-curriculum. We aim for all students to be included in all aspects of academy life and work proactively to eradicate any barriers to inclusion.

The governing bodies of maintained schools and maintained nursery schools, and the proprietors of academy schools must publish information on their websites about the implementation of the governing body's or the proprietor's policy for pupils with SEND. The information published should be updated annually and any changes to the information occurring during the year must be updated as soon as possible. 8) The approach to teaching students with SEND

Leigh Academy Tonbridge is an inclusive establishment that offers a broad and balanced curriculum which is specific to the needs and future opportunities of all students. It ensures this by:

a) Quality First Teaching will be delivered in all areas of the curriculum. Staff are expected to be aware of the needs of all students in their classes, and scaffold work accordingly through adaptive teaching, to meet these needs. *QFT means that some students with needs may not require 'additional to and different from' provision.* This will be monitored via regular lesson reviews, learning walks and student work reviews by the SENDCo, Academy Leadership Team and Directors of Learning.

b) Offering a range of intervention programmes designed to improve the outcomes of students with special educational needs, ensuring they can fully access all areas of the curriculum. These may happen during lessons or during tutor time across two modules. Students are encouraged to attend the Inclusion homework club to catch up on work missed.

c) Providing a range of co-curricular and extended learning activities that offer enrichment opportunities for all students, including those with special educational needs.

d) Providing a clear reporting system three times a year that outlines targets and current achievements.

e) Carrying out regular lesson reviews to ensure that all students, including those

with special educational needs, are receiving high-quality teaching and learning experiences in all areas of the curriculum.

f) Adapting the curriculum to meet the needs of individual students if necessary. However, it is important to note that the curriculum is not narrowed for SEND students.

g) Ensuring that identified students receive the necessary in-class support and exam dispensation.

h) Ensuring that all staff receive regular training on all areas of Special Educational Needs and Disabilities.

i) Providing a provision mapping system that is accessible to all staff. The software provides details of all students with special educational needs, students in receipt of pupil premium, higher attaining students, looked after students and students with English as an additional language. Staff will use this system to inform their planning to ensure they are addressing the needs of students. It will also be used to track, monitor and review students on intervention programmes and provide governors and, where appropriate, provide parents/carers with a clear report in terms of cost, hours and interventions provided.

j) Ensuring all students with special educational needs are tested twice a year using tests that provide standardised scores for reading. The results from these tests will be used to identify areas of need and to inform the SENDCo when planning for interventions and exam dispensation.

k) Providing a range of numeracy, literacy, social, emotional and mental health interventions will be offered to all students who have been identified as having special educational needs in the relevant areas. These will be reviewed regularly.

l) Providing regular and timely communication with parents/carers via assessment reports, annual reviews, parents'/carers' events, telephone and emails.

m) Supporting with access to outside agencies via the local authority, health authority and Leigh Academies Trust.

n) Informing parents/carers of any additional provision that their child is receiving via the SENDCo or Director of Progress.

- Learning Mentors will accompany identified students on trips etc where necessary.

All students have access to a device which they can use adaptive strategies independently whether this be through the support of an app, or another learning platform to suit their needs. Where external advisors recommend the use of equipment or facilities which the academy does not have, they will purchase it using the notional SEN funding, or secure it on loan. For highly specialist communication equipment, the Academy will seek the advice of the CENMAC communication and assistive technology team.

10) The expertise and training of staff to support students with SEND, including how specialist expertise will be secured

Leigh Academy Tonbridge is committed to the professional development of its staff in all areas including Special Educational Needs and Disability. The following provision is in place to ensure that all staff are aware of and can meet the needs of students with special educational needs:

14) How Leigh Academy Tonbridge involves other bodies, including health and social care bodies, local authority support services and voluntary sector organisations, in meeting student's SEND and supporting their families

According to the Code of Practice 2014, the following must be adhered to:

Children and young people with SEND may need integrated support from education, health and/or social care to help them achieve their ambitions. Working together, these agencies can achieve far more for these children and young people than they can separately, more efficiently and often at a reduced cost. The local offer must set out the range of services available locally to children with SEND and the support that children, young people and families may access outside the local area.

The Academy Board and Leigh Academy Tonbridge will liaise and consult with the above-mentioned agencies to create an effective local and academy offer that jointly commissions all agencies. It will then adhere to the local and academy offer to ensure that parents/carers and students receive a cohesive, supportive and transparent service. It currently is able to provide services through the Local Authority, Health Authorities and Leigh Academies Trust through the specified referral routes.

The Local Offer can be found [here](#).

15) Arrangements for handling complaints from parents of children with SEND about the provision made at the Academy

Should you have a complaint, please contact the Principal, Michael Crow, in the first instance. If you deem your complaint to still be unresolved after the Academy has responded, please submit a formal complaint to the Trust's Academies Director.

The LAT Complaints Policy can be found [here](#).
